## Organic Deposit Penetrant, Dispersant, Cleaner and Corrosion Inhibitor

BCP® 1015 is an organic deposit penetrant, dispersant, cleaner and yellow metal corrosion inhibitor. Used with a biocide provides for a BCP® (Biofilm Control Program).

Intended uses: circulating industrial water systems, such as cooling towers, closed loop cooling systems, and sump basins.

### FOR INDUSTRIAL USE ONLY.

System maintenance dosage: Use 25 – 65 ppm on a product basis in slug dose, or at 2 – 10 ppm on a continuous dose basis (depending on blow down).

Surface fouling control may be monitored by measuring ATP before, during and after use of BCP® 1015. Corrosion coupons or instantaneous corrosion monitor (LPR) should be used to determine inhibitor efficacy. Using bacterial enumeration methods (TBC) can show the efficacy of the BCP® 1015.

Ingredients: BCP® 1015 (alkylamide hydrolysate)

### WARNING

#### HAZARD STATEMENTS

Harmful if swallowed. Causes mild skin irritation. Causes eye irritation.

#### PRECAUTIONARY STATEMENTS:

Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves / protective clothing / eye protection / face protection.

**IF SWALLOWED:** Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**IF IN EYES:** Immediately flush eyes with running water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Note:** See Safety Data Sheet for further details regarding safe use of this product.
