

CW211-SR 30 Day Tablet

CW211SR is a cooling water treatment program which is based on patented Smart Release Technology. These solid tablets are coated with a non-water soluble polymer that enables a controlled release of scale dispersing & corrosion inhibitors using a novel, easy and convenient pumpless dosing system. The tablets are designed to release treatment at a consistent dosage over a 30-day period.

WARNING:

Keep out of reach of children. Store in a cool dry place. Keep containers tightly closed when not in use. This product has been designed for use in specific types of cooling water circuits and should be used only in accordance with the instructions provided by the technical representative servicing the facility. It may not be used for the treatment of potable waters.
